### Project Management Tools & Methodologies

- Scrum & Agile Methodologies, Waterfall Methodology
- Atlassian Suite (Jira, Confluence, Bitbucket)

### Productivity & Communication

- Google Workspace, Microsoft Office
- Slack, Skype

## RECENT EXPERIENCE

*Miguel Fondeur UI*

January 2025 - Present

### Software Engineer | Consultant

Notable Clients:

- **Sweetwater** - Largest online-only music retailer in the US
  - Rebuilt their **"Whats New"** and **"Top Sellers"** pages to use client side rendering powered by the Algolia REST API.
  - Developed a front-end design system using native Web Components, with component documentation and testing workflows implemented in **Storybook.js**.
- **Musora** - Music Education Platform
  - Contributed to the launch of Musora's new application by delivering production-ready features and UI improvements.
  - Implemented the **"Streaks"** feature to help users track daily learning progress and engagement.

*Musora Media*

October 2020 - January 2025

### Lead Engineer: Front-End

- **Core Technologies:** Laravel, Vue.js, Pinia, Sanity.io
- Led a team of frontend developers to deliver new web experiences across four brand channels: *Drumeo*, *Singeo*, *Pianote*, and *Guitareo*.
- Partnered with UX designers to translate Figma designs into performant, accessible, and maintainable features aligned with coding best practices.
- Created a component library and front-end design system with Tailwind CSS and Vue.js Components.
- Contributed as an individual developer on key initiatives, including:
  - **Unified Platform** - Consolidated four instrument platforms into one seamless user experience.
  - **Custom Playlists** - Enabled students to curate and organize content to match their learning preferences.
  - **Challenges** - Short-form video lessons tailored for busy musicians.
  - **Musora Content Services** - Developed an NPM package enabling Mobile and Web teams to fetch structured content from Sanity.io.

## PAST EXPERIENCE

*Belk*, **Software Engineer**, January 2019 - December 2020

*Block Digital*, **Solutions Architect**, September 2017 - March 2020

*Ladders*, **Software Engineer**, August 2016 - February 2017

*Knozen Inc.*, **Frontend Engineer**, January 2016 - August 2016

*Solve IT Simply*, **User Experience Developer**, June 2014 - May 2014
